

# Emperor

## One Piece Stoma Pouch Range

# Emperor Values

-  Emperor Stoma pouches have been specifically designed to be secure, comfortable and kind to the skin
-  Emperor Stoma pouches have all the essential features expected of a closed or drainable pouch without carrying the premium prescription cost
-  Emperor Stoma pouches aim to minimise the overall spend in stoma appliances and support alignment to the NHS longer term plan without compromising on quality or choice

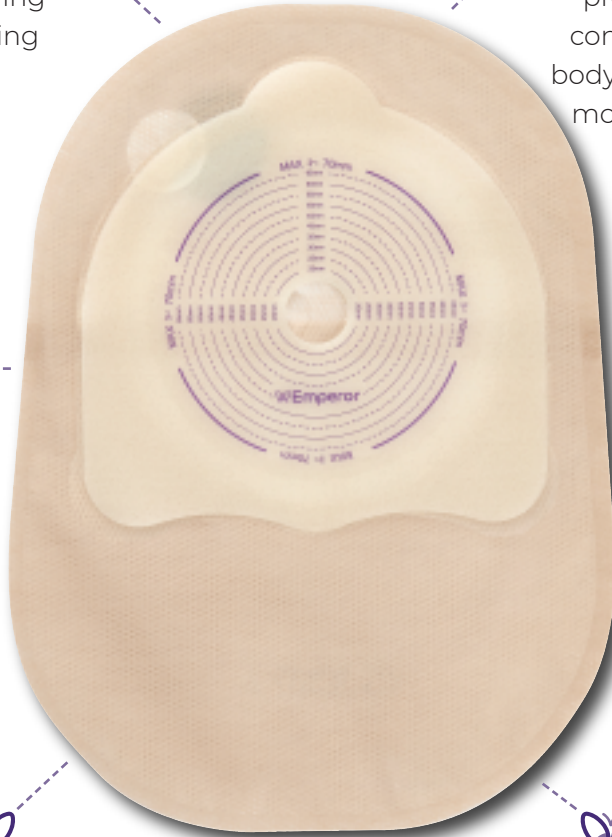

# Emperor Closed Pouch

Optimised filter flow to minimise both ballooning and pancaking

Secure, flexible and comfortable skin protector that conforms to the body contours and moves with you

Available in cut-to-fit or a range of pre-cut sizes

Clear tabs for simple removal of the release film

Pouch front has a split fabric window allowing ease of positioning and reassurance

Comfortable, breathable and durable fabric designed for optimal comfort and pouch discretion

# Emperor Closed Convex Pouch

## Soft Convexity

Soft and flexible convexity to minimise leaks due to flush or slightly retracted stomas

Soft convexity to target uneven skin directly around the stoma for added security

Strong but soft and flexible belt loops sit neatly under the skin protector

Available in cut-to-fit 15-48mm or 5 pre-cut sizes
